

For Mr. Lebed or Dr. Prokop

There is a need for every detail you can supply regarding the comments made about Scherbytskiy and his defense of the young writers. Please send me, as soon as you can, any information you have. Cite the sources of your information, all pertinent dates, quotations or press clippings indicating his stand, names of writers he defended - if by name, press comments indicating his disagreement with the Party split and with Khrushchev's "corn" policy.
